

A Resource for Members of the DC CoP

Explore Our Collection of Padlets 2020-2023

About us!

The DC School Behavioral Health Community of Practice (DC CoP) uses Padlets to collect and share a variety of resources, presentations, and videos on different subjects. They help us collaborate and share information from meetings, practice groups, and trainings.

- ### ? What is a Padlet?

A digital corkboard that allows us to share resources in a fun, creative, and engaging way. This space is instantly updated for all users to see and is accessible to everyone with the link to be accessed from any device.
- ### ? How do we use padlets in the DC CoP?

A virtual and collaborative space where different activities including meetings, practice groups, and emerging issues can pin valuable resources and members can access and comment on them. Padlet is a one-stop-shop for essential resources, making it easy for members to find what they need.
- ### ? How do I find the DC CoP padlets?

Right here! We have collected all padlets, including one for each monthly meeting, practice and work group, and a host of additional emerging issues in the District. You can see all resources by visiting our website.
